- A volunteer run week of events, initiated in DWebYVR
- The Internet Engineering Task Force (IETF) is in town for their global meeting, with over 800 attending in person
- What if we connected this concept of a global community that helps design & build the Internet with Vancouver?
- The Internet is not built in San Francisco. What are we building here? What can we build here? What can we work together on?
- More than tech: art, music, science, food +++
